List of Tables

List of Figures

1   Introduction

2   Outline

Descriptive statistics
- dynamics of selected outcomes
- dynamics of real subsidy per institution
- dynamics of real total subsidy
- dynamics of real subsidy per individual

Regressions

Questions:
- effect of healthy meals (DGE criterion) on healthy characteristics
- effect of real meals subsidy on number of meals
- effect of real trips subsidy on number of trips
- effect of real meals subsidy on self-worth and day-to-day skills

Methods:
- simple, metric
- standardized, metric
- cumulative logit

- with control variables

(- without outliers)

(- imputed data)

    Diff in Diff

    Outlook for CHILDREN

- double selection

- partition analysis

(- correlation matrix)

(- factor analysis)

- general tips
